About Seed Week

Choosing the right sugarbeet seed is the foundation of profitable sugar beet production. Matching varieties to field conditions, disease problems and management will be stressed in these meetings. This is your opportunity to find out what new varieties are being brought forward and how to manage these genetics for the greatest success. The programs will include presentations from each seed company, Michigan Sugar Company Researchers and Sugarbeet Advancement. ***There is no charge to attend these programs, but to help with meal counts, please call Nancy Burd at the Saginaw County MSU Extension Office at 989-758-2500, ext. 231 to confirm your registration.***

LUNCH SPONSORED BY PARTICIPATING SEED COMPANIES.
